SPECIAL OFFERING OF QUALITY COINS

M-33

THE MOST FREQUENT, THE MOST RIDICULOUS, AND THE MOST IMPORTANT!

There are three questions we are asked more often than practically any others. We have classified these questions into three categories. Those questions, and their answers, are listed below:

1. The most frequent question is: "What will you pay me for this rare Silver Dollar that has the word 'Trust' spelled with a 'V'?"

ANSWER: All the "Peace" Dollars, minted 1921 to 1935, are this way.

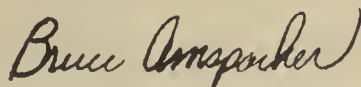

2. The most ridiculous question is: "I save Wheatback Pennies because they're rare. When will they be worth a Dollar apiece?"

ANSWER: We consulted Bilgewater Q. Neverite III, the noted numismatic expert. Mr. Neverite was the first to predict that while type coins would fall in price from 1970 to 1975, that 1950-D nickels would rise to \$27,000 a roll. Mr. Neverite's grandfather, as you probably know, was the first advocate of free lunch and the inventor of the electric spoon. Mr. Neverite's answer: "While the parabolic curve is, in itself, a paradoxical neo-manifestation of itself, the Wheatback Penny is an entity unto itself; therefore, I can say without fear of retribution that barring unforeseen events, the price will reach One Dollar per coin on October 31, 3178, give or take a millenium". We at New England Rare Coin Galleries thank Mr. Neverite for his insight.

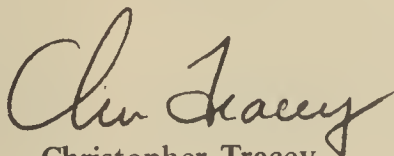

3. The most important question is: "I am advised to buy 'quality' coins because they have proven to be the best investment, because they have averaged increasing 25% per year for the last 20 years, and because they are always in great demand, and are therefore easy to sell when I want to sell. What, exactly, is a 'quality' coin?"

ANSWER: Quality coins are scarce or rare coins in outstanding condition. In order to show you exactly what we mean, we have prepared this listing of only the "cream" of our inventory. It includes a major collection of type coins and Half Dollars that is being offered here for the first time. 98% of the coins listed here are Mint State, and most are Gem MS-65 or better. No matter which coin you order from this offering, you'll receive a "quality" coin.

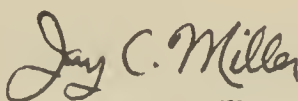

Sincerely yours,

Bruce Amspacher

THE TOTAL GUARANTEE

***GRADING:** We guarantee that all coins purchased from this offering will meet or exceed the standards of the ANA Grading Board, once its requirements are established, with respect to grade and mention of any major imperfections. If not, New England Rare Coin Galleries, at its option, agrees to replace the coin within thirty days of the Board's decision, or to refund the purchase price in full. In addition, we will also pay postage and Grading Board fee.

***AUTHENTICITY:** We further guarantee the authenticity of all coins. Should any coin sold by us be proven counterfeit or altered, we will refund the full purchase price plus 10% interest per year on any non-authentic coin. (To our knowledge, less than 6 coins out of more than 1 million we have sold have been returned for these reasons.)

***30 DAY RETURN PRIVILEGE** We invite you to compare our selection,

grading, and prices with other sellers. If you are not satisfied for any reason (or no reason at all), you may return your coins to us within 30 days from the date you receive your coins for a full refund or replacement.

***IN WRITING:** A written guarantee will be issued with all items purchased from us. This guarantee is backed by our President, Jim Halperin, and is signed by the numismatist who services your account. On request, photographs accompany all coins purchased with a value of \$1000 or more.

***PLEASE NOTE:** We caution that all dealers' grading, numerical or otherwise, is not the same as ours. Many buyers have the mistaken impression that any dealer that grades numerically, grades correctly. If our MS-60 is priced higher (or lower, for that matter) than another dealer's coin, we still suggest some comparison shopping to determine which is the best value.

IT STANDS BEHIND EVERY COIN WE SELL.

SPECIAL OFFERING!!

The 1879 \$3 Gold Piece is one of the most popular coins in the entire United States Gold Series. The low mintage (only 3,000 business strikes, only 30 proofs) has always deserved a second look. Instead of strengthening the 1878 logotype, brand new die pairs were introduced in 1879, and the result was perfection in strike and extremely high quality satin or prooflike surfaces. The 1879 issue consistently provides the very top examples of James Longacre's beautiful design. In March we purchased a Rare Gold Estate that included 14 Pieces of this date, and we offer them here for the first time at prices which should also make this the last time (i.e., we expect a sellout).

1920-S GEM BU (65), Exceptionally sharp strike. We recently purchased a small hoard of this scarce and underrated date. In spite of the seemingly high mintage, we have had as much trouble in the past locating this date in GEM condition as any other date in the series, with the exception of the 1921-S.

The 1920-S is characteristically weak in strike, and sharply struck specimens have always brought a large premium. In the past several years, however, there have been practically no GEM BU specimens offered, so auction records and coin listings on this issue have been almost meaningless.

The meteoric rise in the prices of all issues of the Walking Liberty Series has been expected; we have endorsed this series wholeheartedly for many years. It was less than five years ago that the 1921-S first sold for over \$3,000. The price at the time was staggering. Today, a Choice BU is a \$12 - 14,000 coin, and GEMS are flirting with the \$20,000 level.

We feel the 1920-S half dollar offers a similar investment opportunity at present levels, and that it could easily be a \$5,000-7,500 item in a few short years. We have priced the few GEM BU examples of this date that we have in stock at a realistic \$2,450.00
